Core Competencies

Design Systems
Interaction Design
Visual & Motion Design
Human-Centered Design
Pattern Library Management
Sprint Facilitation
Rigorous Detail

Prototyping & AI

AI-Assisted Development
LLM Prompting
Rapid Prototyping

Tools & Engineering

Figma, Photoshop, Illustrator
Cursor, Copilot, Claude
HTML, CSS, JavaScript, React
Git & GitHub Repo Orchestration
Design System Token Architecture

Education

Northern Arizona University
Bachelor of Science in Advertising

Colt Fulk

Product Designer & Design Systems

Career Highlights

- **Redefined TV navigation:** Led a major redesign of the YouTube on TV app, inventing simplified navigation paths to core verticals (Music, Gaming, Movies & TV) that increased YoY watch-time, sign-in, and purchase revenue.
- **Pioneered entertainment UX:** Invented the Show Entity Framework and premium metadata models for YouTube Movies & TV, driving significant subscription and ad revenue growth.
- **Scaled enterprise design systems:** Built WCAG AA compliant token architectures and pattern libraries for Snapchat, YouTube, and Apple, including 1,500+ pixel-perfect retina assets for iOS/macOS.
- **Led major platform expansions:** Directed end-to-end design for Snapchat's inaugural iPad app and built YouTube's first Chromecast queue and autoplay UX, driving a 6% watch time lift for YouTube on TV
- **Standardized enterprise design tools:** Championed Figma adoption across Google Europe, scaling the YouTube Studio design system to YouTube Creator and additional Google teams in just 9 months.

Professional Experience

Reddit · Los Angeles, CA

Senior Product Designer, Reddit Pro · 01/2026 to Present

- Integrated AI-assisted development (Cursor, Copilot) to accelerate the 0-to-1 prototyping phase of new sign-in and onboarding UIs, delivering functional code directly to engineering.

Snapchat · Los Angeles, CA

Design Systems Lead · 01/2024 to 01/2026

- Architected color primitives and design tokens for light and dark mode themes, establishing systemic cohesion and significantly improving A11Y across the platform.
- Directed end-to-end design for Snapchat's inaugural iPad launch, adapting core components for tablet constraints and driving user growth (featured in The Verge and TechCrunch).
- Facilitated cross-functional workshops to develop scalable design patterns for core product surfaces including Friends Feed and Chat, driving widespread usability.
- Leveraged AI tools (Cursor, Copilot) to partner on engineering bug bashes and deep code fixes, while building custom Figma plugins adopted by the wider design team.

YouTube · Zürich, Switzerland & San Bruno, CA

UX Design Manager, Primetime · 11/2021 to 06/2023

- Orchestrated global leadership strategy summits, sprints, and quarterly presentations to executives, ensuring cross-functional alignment and achieving key business objectives across 100+ countries.
- Collaborated with executives to design and launch YouTube's 'Free-with-ads' and 'Primetime Channels' subscription tiers, creating new recurring revenue streams.

Senior UX Lead, Movies & TV · 04/2019 to 10/2021

- Generated 10+ UX frameworks for entertainment content addressing international rights, metadata, and pricing tiers, resulting in substantial YoY revenue increases.
- Drove customer-obsessed growth by designing three new consumer storefronts across mobile, tablet, and TV, increasing overall subscribers from 64M to 175M.

UX Designer, TV Team · 01/2014 to 04/2019

- Led foundational UX for mobile-to-TV casting, sign-in and identity, launching the platform's first continuous play UX.
- Created and maintained a pattern library of 300+ UI Sketch assets utilized across YouTube design teams to increase speed and efficiency.

Apple · Cupertino, CA

Lead Designer, Production Artist · 03/2011 to 08/2012

- Established a rigorous style guide and pattern library for Apple's Developer Documentation, leading a team to produce 600+ technical diagrams. Crafted 1,500+ pixel-perfect UI assets for flagship iOS and macOS software (iTunes, Keynote, Safari).
